Safeguarding and Promoting Welfare of Pupils Policy

Policy name:	Safeguarding and Promoting Welfare of Pupils Policy
Version:	Final
Author/s:	Francesca McCormick Victoria Bentley
Date:	15/10/2019
Date approved by Governing body:	01/11/2019
Review period:	Annually

Name	Signature	Date
Katrina Brown <i>Principal</i>		01/11/2019
Neil Jones <i>Chair of Governors</i>		01/11/2019

Legal Status:

- This policy is based on the Department for Education's statutory guidance [Keeping Children Safe in Education \(2019\)](#) and [Working Together to Safeguard Children \(2018\)](#), and the [Governance Handbook](#).

This policy is also based on the following legislation:

- Part 3 of the schedule to the [Education \(Independent School Standards\) Regulations 2014](#), which places a duty on academies and independent schools to safeguard and promote the welfare of pupils at the school
- [The Children Act 1989](#) (and [2004 amendment](#)), which provides a framework for the care and protection of children
- Section 5B(11) of the Female Genital Mutilation Act 2003, as inserted by section 74 of the [Serious Crime Act 2015](#), which places a statutory duty on teachers to report to the police where they discover that female genital mutilation (FGM) appears to have been carried out on a girl under 18
- [Statutory guidance on FGM](#), which sets out responsibilities with regards to safeguarding and supporting girls affected by FGM
- [The Rehabilitation of Offenders Act 1974](#), which outlines when people with criminal convictions can work with children
- Schedule 4 of the [Safeguarding Vulnerable Groups Act 2006](#), which defines what 'regulated activity' is in relation to children
- [Statutory guidance on the Prevent duty](#), which explains schools' duties under the Counter-Terrorism and Security Act 2015 with respect to protecting people from the risk of radicalisation and extremism

Applies to:

The whole school and all other activities provided by the school, inclusive of those outside of the normal school hours; all staff (teaching and support staff), contractors, supply staff, agency staff, students on placement, the Trustees and Local Governing Body and volunteers working in the school.

This policy has been compiled in conjunction with and reference to the following related documents.

- Policies available on the Chester International School website and also on request from the school office: Anti-bullying; Behaviour Management including Discipline, Sanctions and Exclusions; Student Protection: Quick Referral Charts; Designated Safeguarding Lead – Job Specification; First aid; Educational Visits and Offsite activities; E-Safety including Cyber Bullying; Personal Social Health and Economic (PSHEE) education; Special Educational Needs and Disabilities; Spiritual, Moral, Social and Cultural (SMSC) Education; Whistleblowing, Staff Code of Conduct.
- Policies available on the Staff Share: Preventing Extremism and Radicalisation; Safer Recruitment; Types, Patterns, Recognitions and Indicators of Abuse and Neglect; Keeping Children Safe in Education. Statutory guidance for schools and colleges. (DfE: March 2015)

Availability:

This Policy is made available to parents, staff and pupils via the School website and on request a copy may be obtained from the School Office Designated Safeguarding Lead (DSL) and Deputy DSL who are the Prevent Officer and Deputy Prevent Officer for the whole School: have lead responsibility for student protection and are also the Prevent Officer and Deputy Prevent Officer responsible for the prevention of radicalisation, extremism and being drawn into terrorism. Both are members of the Senior Leadership Team (SLT) and have the status and authority within the school to carry out the duties of the post. This includes student protection referrals, raising awareness, training, liaising with the local authority children's agencies as appropriate, committing resources and supporting and directing staff. Their telephone numbers are prominently displayed in the School. In all matters relating to student protection the School will follow the procedures laid down in this policy.

Monitoring and Review:

This policy is subject to continuous monitoring, refinement and audit by the Principal and Designated Safeguarding Lead (DSL). The Proprietors and Local Governing Body will undertake a full annual review of this policy and procedures, inclusive of its implementation and the efficiency with which the related duties have been discharged. This discussion will be formally documented in writing.

Definition of Safeguarding from Keeping Students Safe in Education (DfE, 2019):

This is defined as: protecting students from maltreatment; preventing impairment of children's health or development; ensuring that students grow up in circumstances consistent with the

provision of safe and effective care; and taking action to enable all students to have the best outcomes.

Our School's Designated and Deputy Safeguarding Lead and Prevent Officer for the School:

They provide support to staff members to carry out their safeguarding duties. They also will liaise closely with other services. The Chester International School DSL and Deputy DSL with lead responsibility for student protection are:

- **Designated Safeguarding Lead (DSL) and Prevent Officer for the school**

Fran McCormick is the Designated Safeguarding Lead (DSL) for the whole school. Contact details: telephone: 01244 735610 Email: fmccormick@chesterinternational.co.uk

- **Deputy Designated Safeguarding Lead (DSL) and Deputy Prevent Officer for the School**

Vicky Bentley is the Deputy Designated Safeguarding Lead (DSL) for the whole school. Contact details: telephone: 01244 735610 Email: vbentley@chesterinternational.co.uk

- **Nominated Board of Governors for Safeguarding and Prevent Duties**

Debbie Ravenscroft is the nominated Board Member for Safeguarding who will liaise with the local authority on issues of student protection. Contact details: telephone: 01244 735610 Email: dravenscroft@chesterinternational.co.uk

Chester International School has a good working relationship with Chester and Cheshire West, Flintshire Social Services, Wrexham Social Services, and Wirral Social Services. The Local Safeguarding Student's Board applicable to Chester International School is CWAC LSCB. This is an independent statutory board that ensures everyone is working together for the safety and wellbeing of students and young people in the area and Chester International School communicates readily with them. The website address for the LSCB is www.cheshirewestlscb.org.uk and their email addresses and appropriate contacts are;

**Sian Jones – LSCB Business
Manager**

Tel: 0151 356 6835

**Noreen Gallagher – LSCB
Administrator**

Tel: 0151 356 6614

**Gordon Grinney – Quality
Assurance Officer**

Tel: 01244 973342

Email:
sian.jones@cheshirewest
andchester.gov.uk

Email:

k

Wirral Social Services:

Tel: 0151 606 2008

Email: ifd@wirral.gov.uk

Copies of the LSCB procedures are available from the school on request.

CWAC has a Safeguarding Manager for the purpose of referral, assessment and support for students requiring protection. The exception is where an allegation is against a member of the school staff and this is referred direct to the Local Authority Designated Officer (LADO).

The Local Authority Designated Officer (LADO) is familiar with our methods and procedures and good communication is maintained with CWAC. The contact details for the LADO are as follows:

- Paul Jenkins: 0151 356 6587 (office hours)
- Emergency Duty Team (out of hours) on 01244 977277

Cheshire Police:

- Telephone: 01244 350000 (999 in an emergency)

Responding to allegations of abuse:

The following procedures apply to all staff, including the Principal, volunteers and Local Governing Body: In order to prevent any possible delay, all staff recognise that safeguarding is everyone's responsibility and know that they can make a referral to the SAFEGUARDING MANAGER or the LADO directly if they wish.

- If an allegation is made against anyone working in the school (inclusive of volunteers), the DSL must be informed who will contact the LADO to discuss the allegation, consider the nature, content and context of the allegation and agree a course of action.

- If an allegation is made against the DSL/Principal, then the Director for Safeguarding (Edward Browne) should be informed who will then contact the LADO without contacting or notifying the DSL/Principal.
- If the allegation is made against the proprietors or members of the Board. The Principal will, without informing the member of the Board in question, contact the LADO. The other members of the board or other proprietors will be kept informed, unless the allegation also relates to them. Chester International School will carefully consider whether the circumstances of the case warrant suspension or whether alternative arrangements should be put in place. We give due weight to the views of the LADO and to our policy when making a decision about suspension.

All unnecessary delays should be eradicated. In borderline cases, this can be done informally and without giving names in the first instance. The School will not investigate allegations without first gaining the agreement of the LADO. In the case of serious harm, the police are informed from the outset. Discussions will be recorded in writing, with any communication with both the individual and the parents of the student/students agreed. If there are suspicions or an allegation is made against anyone who does not work at the school, the DSL (or in their absence the Deputy DSL) must be informed as soon as practical. The DSL will immediately, or at least within 24 hours, make a referral to the RBKC Safeguarding Manager.

Purpose:

Chester International School (also known as 'CIS' within this document), fully recognises its responsibility to safeguard and promote the welfare of students at our school.

The purpose of this policy is to provide staff, volunteers and the Local Governing Body with the guidance they need in order to keep students safe and secure in our school and to inform parents and guardians how we will safeguard their students whilst they are in our care.

Context:

We recognise that students and young people have a right to feel secure and cannot learn effectively unless they do so.

Parents, carers and other people can harm students either by direct acts or failure to provide proper care, or both.

Students may suffer neglect; emotional, physical or sexual abuse or a combination of such types of abuse.

All students have a right to be protected from abuse. Whilst the school will work openly with parents as far as possible, the school reserves the right to contact Children's Social Care or the Police, without notifying parents if this is in the student's best interests.

Our students have the right to respect and protection from abuse, regardless of age, gender, religion, race, nationality, sexuality, culture or disability.

Our safeguarding Student Protection Policy is also dove-tailed with the Behaviour Management and Antibullying Policies.

We are committed to creating an environment where staff feel able to raise concerns (in accordance with locally agreed inter-agency procedures) and to feel supported in their safeguarding role.

Keeping Students Safe in Education (DfE: 2015) makes it clear that anybody may make a referral to external agencies, if necessary.

While it would be more common for the Designated Safeguarding Lead to make referrals to external agencies, it is most important that all adults understand that our threshold for taking action will not be placed unnecessarily high; perhaps leading to a failure to react to borderline cases.

Our DSL receives informal advice from the Single Point of Access thus ensuring that students receive the right support in good time to address risks and prevent issues from escalating.

This policy document gives advice on actions our staff should take when receiving a disclosure – including avoiding asking leading questions and explaining that confidentiality cannot be promised.

Advice on the need to keep clear notes, and to reassess concerns where situations do not seem to be improving, to share information quickly, or where there is inaction, is included in this policy.

Staff should also be familiar with the protections provided by the Whistleblowing Policy (which is on the school website) and the information contained in the Staff Handbook.

In preparing this policy we have been attentive to the nature, age range and other significant features of the school in the provisions made for safeguarding.

In CIS with an age range from 14-19 we are aware of the potential scope for problems relating to emotional health issues, body image, eating disorders, self-harm, and also radicalisation and extremism.

Within the curriculum and Spiritual, Moral, Social and Cultural education, we instil within students values that build resilience and prevent young people being drawn into radicalisation and extremism.

Aims:

This policy inclusive of the procedures apply to all staff, the CEO of The Learning Trust, the Local Governing Body and volunteers working in the school.

We work in full compliance with Keeping Students Safe in Education (DfE: 2019). The aim of CIS's procedures is to prevent students being abused and to safeguard and promote the welfare of students at CIS.

CIS prides itself on respect and mutual tolerance.

Parents, guardians and carers have an important role in supporting the school and open communications are essential which is why copies of this policy and others relating to issues of student protection are on our website.

Whole Staff Responsibilities:

CIS recognises that because of regular and sustained contact with students, school staff are well placed to observe the outward signs of abuse. CIS will therefore:-

- establish and maintain an environment where students feel secure, are encouraged to talk and are listened to;
- ensure students know that there are adults in the school whom they can approach when they have concerns.
- include opportunities in the Personal, Social, Health and Economic (PSHE) curriculum for students to develop the skills they need to recognise and stay safe from abuse;
- ensure policies and procedures are applied with due common sense and sensitivity;
- treat all disclosures with the strictest confidence;
- ensure that parents have an understanding of the responsibility placed on the school and its staff for child protection by setting out its obligations in the school handbook and that parents are offered a copy of the policy on request;
- notify parents of our concerns, and provide them with opportunities to change the situation, where this does not place the student at greater risk;

- develop effective links with the Safeguarding Manager and cooperate as required with their enquiries regarding child protection matters including attendance at Child Protection Case Conferences;
- liaise with other agencies that support children through normal referral routes and the CAF process.

Induction and On-Going Training for all staff and the Principal:

Induction training for all new employees in a regulated activity (including temporary staff) takes place either before or on the day the person starts at the school. This includes:

- Child Protection Training Level 1
- identity and function of DSL, safeguarding policy and procedures, staff conduct and teachers' standards (including the whistleblowing procedure),
- part 1 of Keeping Students Safe in Education the latest edition being September 2016.

CIS ensures that sufficient relevant staff are trained in safer recruitment processes.

CIS delivers INSET on anti-bullying, e-safety including cyber bullying along with the implications for mental health.

The active promotion of British values and an understanding of extremism and radicalisation.

All new staff are given and read the latest KCSIE document as part of their induction.

All other staff are provided with and read all updated KCSIE documents.

All staff are expected to confirm in writing that they have read and understood our core policies including this Safeguarding Policy.

Designated Safeguarding Lead (DSL), Deputy DSL and their Responsibilities (including the Prevention of Radicalisation):

The Trustees of The Learning Trust have ensured that CIS has appointed a Designated Safeguarding Lead (DSL) (Fran McCormick) to take lead responsibility for student protection.

The DSL has the status and authority within the school to carry out the duties of the post including committing resources and, where appropriate, supporting and directing other staff.

The DSL is the first point of contact for external agencies who are pursuing Student or Adult Protection investigations and co-ordinates the School's representation at Student or Adult Protection conferences and Core Group meetings (including the submission of written reports for conferences).

However, if required, the Deputy DSL is able to undertake these responsibilities.

Temporary, supply, and contracted staff are made aware of the arrangements for safeguarding and reporting concerns according to this policy.

With reference to managing referrals, the broad areas of responsibility (in line with the requirements of KCSIE: September 2016) for the DSL are:

- to refer all cases of suspected abuse to Children's Social Care and or the LADO for child protection allegations which concern a member of staff, to the Disclosure and Barring Service where a person is dismissed or left due to risk/harm to a student and/or the police if a crime may have been committed;
- to liaise with the Trustees and Local Governing Body to inform them of issues especially ongoing enquiries under section 47 of the Children's Act 1989 and police investigations and to act as a source of support, advice and expertise to staff on matters of safety and safeguarding and when deciding whether to make a referral by liaising with relevant agencies.

The DSL and the Deputy DSL receive Child Protection Level 3 training every two years.

Prevent Duty:

SAFEGUARDING PUPILS/STUDENTS WHO ARE VULNERABLE TO EXTREMISM

Since 2010, when the Government published the Prevent Strategy, there has been an awareness of the specific need to safeguard children, young people and families from violent extremism.

There have been several occasions both locally and nationally in which extremist groups have attempted to radicalise vulnerable children and young people to hold extreme views including views justifying political, religious, sexist or racist violence, or to steer them into a rigid and narrow ideology that is intolerant of diversity and leaves them vulnerable to future radicalisation.

The Local Governing Body, Principal and staff are fully aware of their duty of assessing the risk in this international school of our students being drawn into terrorism including support for terrorist ideology fundamental to which are extremist ideas.

It is incumbent on us to be vigilant in ensuring that our students are safe from extremist and terrorist material when accessing the internet. Integral to our e-safety strategy is ensuring that appropriate filtering is in place.

We take into account the CWAC arrangement to fulfil *Prevent* duties.

This is achieved through the curriculum, our management of E safety, being aware of student behavioural changes, being alert to any attempted external influences on the school and of, course through staff training.

In addition to prevent training for the designated safeguarding lead and deputy lead this will also be expanded to include all coaches.

Our school promotes young people in making positive choices about their lives and endorses the Channel early intervention scheme for students who could be at risk of radicalisation.

Our school, like all others, is required to identify a Prevent Single Point of Contact (SPOC) who will be the lead within the organisation for safeguarding in relation to protecting individuals from radicalisation and involvement in terrorism: this will normally be the Designated Safeguarding Person.

The SPOC for CIS is Fran McCormick who is the DSL.

When any member of staff has concerns that a pupil may be at risk of radicalisation or involvement in terrorism, they should speak with the SPOC and to the Designated Safeguarding Person if this is not the same person.

Numerous factors can contribute to and influence the range of behaviours that are defined as violent extremism, but most young people do not become involved in extremist action.

For this reason the appropriate interventions in any particular case may not have any specific connection to the threat of radicalisation, for example they may address mental health, relationship or drug/alcohol issues.

Non-urgent crime prevention advice can be obtained by contacting the local Police Crime Reduction Officer.

Counter Terrorism security advice can be obtained by writing to:

Counter Terrorism Security Advisers
Cheshire Constabulary Headquarters
Clemonds Hey
Oakmere Road
Winsford
CW7 2UA
Tel: 0151 777 8501

The CTAs would also like to remind readers that anything suspicious which is connected with Terrorism should be reported to:

- Cheshire Police on **101**
- The Anti-Terrorist Hotline on **0800 789 321**.
- If it is an emergency remember to dial **999**.

All Prevent training will be refreshed every three years.

The safeguarding function of the Local Governing Body as a whole includes:

- monitoring the policy, procedures and the efficiency with which they are carried out;
- ensuring that there are clear job specifications for the DSL and the deputy DSL;
- allocating adequate time allowance, funding, supervision and support which will enable fulfilment of these job specifications with regard to student welfare and safeguarding responsibilities;
- regularly reviewing the practice of safeguarding within the school, and giving opportunities for any concerns to be voiced;

- ensuring that all Local Governing Body Members have an understanding of the methodology of the teaching of safeguarding issues within the school.

The safeguarding function of the Director appointed for safeguarding includes:

- having responsibility for the monitoring of the safeguarding process alongside the DSL and the dissemination of that process to the Local Governing Body, and then producing and presenting an annual detailed report and minutes with the DSL to the Local Governing Body;
- ensuring that the report and minutes are sufficiently detailed to demonstrate both the breadth and the depth of the review;
- having responsibility for ensuring that the DSL has informed all staff (teaching, non-teaching, contractors, agency staff and volunteers) of the policy content, has checked their understanding of it and is monitoring the policy in practice.

Safe Working Practices for the Safeguarding and Protection of Students and Staff at CIS:

It is essential that all staff, the Local Governing Body and Trustees of The Learning Trust working in the school are aware of how to pass on any concerns about other members of staff or volunteers and be conscious of how they should conduct themselves to minimise the risk of finding themselves as the subject of any student protection processes.

The prime concern at all stages must be the interests and safety of the student. Where there is a conflict of interests between the student and parent, the interests of the student must be paramount.

What our staff must know and do:

All cases of suspected student abuse should be given the highest priority. The following sequence of events should be adhered to, where you think there might be reasonable grounds for suspecting abuse:

- **LISTEN** to what the student has to say and take them seriously; reassure the student but advise that you cannot promise to keep a secret. If there is a requirement for immediate medical intervention, assistance should be called for.

- **RECORD** in detail the circumstances and timings of the disclosure including the nature and extent of any injuries, explanations given by the student and the action taken (which may be used in any subsequent court proceedings), within 24 hours of the disclosure. **YOU MUST NOT INVESTIGATE THE INCIDENT, ASK LEADING QUESTIONS OR REPEATEDLY QUESTION/ASK THE STUDENT TO REPEAT THE DISCLOSURE OVER AND OVER.**
- **REPORT** all suspicions, concerns, instances and allegations of actual or suspected student abuse or neglect immediately to our Designated Safeguarding Lead (DSL): Fran McCormick). **In the absence of the DSL inform the Deputy DSL:** Vicky Bentley who will then contact the CWAC Safeguarding Manager (SAFEGUARDING MANAGER).
- **REMEMBER** – speed is essential - The SAFEGUARDING MANAGER will then provide advice, instruction and direction as is relevant.

All school staff should be aware of the signs of abuse and neglect so that they are able to identify cases of students who may be in need of help or protection.

Staff members working with students are advised to maintain an attitude of ‘it could happen here’ where safeguarding is concerned.

When concerned about the welfare of a student, staff should always act in the interests of the student.

Knowing what to look for is vital to the early identification of abuse and neglect.

If staff are unsure they should always speak to the Designated Safeguarding Lead (DSL), Fran McCormick, who will consult with the Safeguarding Manager.

CIS uses the following pro-forma:

Safeguarding Concern Form – for the recording of incidents and concerns that arise in relation to student safety and well-being (completed by a member of staff in the event of a concern or a disclosure, usually immediately and with the assistance of DSL or Deputy DSL)

All Safeguarding Concern Forms are reviewed by the DSL and, monthly, by the Director with Responsibility for Safeguarding.

The form is always available from the DSL or Deputy DSL.

Behaviour Incident Form – to record the details and sanctions in relation to student misbehaviour (completed by the Assistant Principal and signed off by the DSL)

Register of vulnerable students – (compiled by the DSL)

Register of Students with Medical Conditions – (compiled by the DSL)

Anti-bullying Log – a log of bullying incidents and how they are dealt with by the school (completed by the DSL)

The DSL has responsibilities following a report of concerns from a member of staff.

- The DSL must make a referral to the Safeguarding Manager within 24 hours if there is a disclosure or an allegation of abuse, or reasonable cause to suspect a student is at risk of, or is suffering, significant harm.
- If there are grounds for concern, the DSL must contact the Safeguarding Manager. This will always be done where there is a disclosure that relates to student-on-student abuse within the school or abuse that relates to events outside the school.
 - The DSL will make a clear statement of the known facts; any suspicions or allegations; whether or not there has been contact with the student's family;
 - If the DSL feels unsure about what the student has said or what has been said by others then the DSL can telephone the Safeguarding Manager to discuss concerns. To do so will not constitute a student abuse referral and may well help to clarify a situation;
 - If any disclosure or allegation is made with regard to a member of staff the DSL will make a referral to the LADO (via the SAFEGUARDING MANAGER), and will do so within 24 hours of a disclosure and ideally within one hour.
- If there is not a disclosure or an allegation of abuse, or reasonable cause to suspect a student is at risk of, or is suffering, significant harm, the DSL may still choose to contact the LADO to elicit advice, and will then either move to a formal referral or actively monitor the situation.
- **If, at any point, there is a risk of immediate serious harm to a student a referral should be made to children's social care and the police immediately. Anybody can make a referral.** The student can be kept in school if advised to do so by these agencies. The parent should be informed and a decision should be made with the Safeguarding Manager/police about who should do this.

- Normally, the DSL will try to discuss any concerns about a student's welfare with the family and where possible to seek their agreement to making a referral to the Safeguarding Manager if necessary. However, in accordance with DfE guidance, this will only be done when this will not place the student at increased risk. The student's views will also be taken into account.
- Where there are doubts or reservations about involving the student's family, the DSL should clarify with the Safeguarding Manager or the police whether, and if so when and by whom, the parents should be told about the referral. This is important in cases where the police may need to conduct a criminal investigation. Where appropriate, the DSL should help the parents understand that a referral is in the interests of the student and that the school will be involved in the enquiry or police investigation, as per the Students Act 1989.

Missing Students:

A student going missing from an education setting is a potential indicator of abuse or neglect.

Our staff will follow the school's procedures for dealing with students who go missing, particularly on repeat occasions.

There could also be implications for such students regarding radicalisation and exposure to extremist views and possible terrorism.

They should act to identify any risk of abuse and neglect, including sexual abuse or exploitation.

Staff are alert to signs to look out for and the individual triggers to be aware of when considering the risks of potential safeguarding concerns such as travelling to conflict zones, FGM and forced marriage.

CIS is vigilant about the completion of its admission register and an attendance register.

Use of mobile telephones, cameras:

In general, staff should not use mobile telephones in the presence of students.

The recording of images of students by any means is a particularly sensitive subject and one which staff and the Local Governing Body are made aware of for both the students' and their own safety.

Any images or recordings should only be edited or stored on school computers with the express permission of the Principal.

Personal mobile telephones should never be used for these purposes, and photographs or recordings should only be made where there is a legitimate school purpose. A pupil's privacy and dignity must be preserved at all times.

Images or recordings should not be transmitted to third parties without permission of the Principal or parents of the student involved.

This guidance also applies to all students.

Allegations of abuse by one or more student on another student:

In circumstances where there is an allegation of abuse by one or more students against another student, it is essential that all students involved, whether perpetrator or victim, are treated as being 'at risk'.

The procedures for dealing with such abuse, where there is 'reasonable cause to suspect that a student is suffering or likely to suffer, significant harm' are that the allegation or disclosure must be reported to the DSL immediately, but at least within 24 hours of it becoming known.

We will refer student-on-student abuse to an external safeguarding agency where there is a risk of significant harm. The DSL will report to the Safeguarding Manager as above.

Reference should also be made to CIS's Anti-Bullying Policy.

Allegation of abuse of a student who is not a student at the school:

If CIS was given information that suggested that a member of staff was abusing a student who is not a student at the School, the DSL would immediately report to the Safeguarding Manager and follow the procedure as if it was one of our own students.

Vulnerable Pupils:

Particular vigilance will be exercised in respect of pupils who are recorded on the School's Record of Vulnerable Students or the Record of Students with Medical Conditions.

Safeguarding Disabled students:

Disabled students have exactly the same rights as non-disabled students; to be safe from abuse and neglect, to be protected from harm and to achieve the 'Helping Students Achieve More' outcomes.

Disabled students experience greater risks, vulnerability and unequal access to services and resources.

They may have additional needs relating to physical, sensory, cognitive and/or communication impairments.

Our staff receive relevant training to raise awareness and have access to specialist staff in the event they have concerns regarding abuse of a disabled student.

Some disabled students may be more vulnerable to abuse because they may:

- have fewer outside contacts than other students; receive intimate, personal care;
- have an impaired capacity to resist or avoid abuse; have communication difficulties;
- fear losing services; be more vulnerable to peer abuse (e.g. bullying, sexual assault, intimidation).

Working in Partnership and Responding to Parents and Carers:

Our school works in partnership with parents/guardians/carers and local authorities communicating as clearly as possible with them (in particular with parents for whom English is not their first language) for the best outcomes for students.

The Principal/DSL must be notified of a concern before involving parents/guardians/carers in conversations about abuse.

Parents/guardians/carers will be informed as soon as possible where appropriate about any concerns regarding their students.

Parents/guardians/carers will usually be told the source of a referral if it comes from a professional agency e.g. a school.

However, members of the public can ask to remain anonymous.

The parent/guardian/carer will normally be contacted before a referral is made to the CWAC LSCB.

However, if the concern involves alleged or suspected sexual abuse, honour based violence, fabricated or induced illness or the DSL has reason to believe that informing the guardian at this stage might compromise the safety of the student, or a staff member, there will be no contact by the school prior to the referral (although the reasons for this course of action will be documented on the referral).

Where a student sustains a physical injury or is distressed as a result of reported chastisement, or alleges they have been chastised by the use of an implement or substance, this will immediately be reported for investigation to the CWAC LSCB.

Referrals will be confirmed in writing.

The School recognises the need to be alert to the risks posed by strangers or others (including the parents, guardians or carers of any students) who may wish to harm students in or out of School.

Parents/guardians/carers are reminded that in matters of parental contact or residency, the school will not act as a mediator for parents.

The school will seek to protect the interests of the student, first and foremost.

Parents who expect the school to actively take sides outside the best interests of the student will find that their student is referred to the appropriate relevant agency to protect the student from being at risk of emotional harm.

Contact orders (student access) must be given to the school by the parents so that these can be meticulously followed, including any timely revisions, in accordance with our school's terms and conditions.

Parents are informed of our safeguarding responsibilities; this policy is available on the schools' website and from the school office.

CIS does not give out contact information/personal details to other parents, without permission.

Listening to the wishes of students and young people:

CIS ensures that students' wishes and feelings are taken into account when determining what action to take and what services to provide to protect individual students, acting in their best interests.

We believe it is critical that our students have an adult who they can trust and CIS ensures that there are appropriate systems so students know who they can turn to and that staff will listen to them.

These include:

- Personal Coaches
- PSHE Curriculum
- Helplines such as NSPCC and Student line (Contact numbers are presented on the next page of this policy)

Records:

Written notes will be kept of all incidents relating to individual students.

This information may be shared with other agencies; the views of the student who is the subject of the concern will be taken into account but staff will be alert to the dangers of keeping “secrets”.

All contact with parents and external agencies will be logged and kept in Student Protection records which are kept separate from educational records and can only be accessed by designated people within the school.

If a student is withdrawn from the school, all efforts will be made to identify the school to which the student is being admitted; their confidential educational and student protection records will be sent separately.

Whistleblowing:

Our whistleblowing policy is integrated into training and codes of conduct.

We make it clear both in induction and other training and in guidance provided for staff that they have a responsibility to speak up about safeguarding and welfare matters within our school and to external agencies where necessary.

This is one part of the way in which we establish in our school, a positive safeguarding culture.

We have a culture of safety and raising concerns.

There are procedures for reporting and handling concerns, and provision for mediation and dispute resolution where necessary.

Student's Death:

In the event of a death of a child the Principal must notify the CWAC CDOP Tel: 016062 88923 CDOP@cheshireeast.gcsx.gov.uk via the SAFEGUARDING MANAGER and the DfE.

Key Contacts:

Deficiencies and Weaknesses:

It is the duty of all members of Staff and the proprietor to draw to the attentions of the DSL any weakness or deficiencies in this policy.

The DSL will ensure that this is then followed up without delay, with policies and procedures being updated as needed rather than waiting for any regular review date.

Complaints:

All complaints arising from the operation of this policy should be referred to the DSL (who will keep the Local Governing Body informed).

If the complaint relates to the Principal who is also the DSL, this should be referred directly to the Director with responsibility for Safeguarding who will arrange for the complaint to be investigated.

This policy applies to all students of CIS

Types and Signs of Abuse and Neglect including Possible Indicators (This additional document is related to The Child Protection Policy and encompasses the types of abuse and neglect signs which are identified in Keeping Students Safe in Education (September 2016) *Types of Abuse and Neglect*:

Working Together to Safeguard Students (HM Government, 2015) defines abuse as a form of maltreatment of a student. Somebody may abuse or neglect a student by inflicting harm, or by failing to act to prevent harm.

They may be abused by an adult or adults or another student or students.

Working Together to Safeguard Students (HM Government, 2015) further states that the type of abuse and neglect include: Abuse and Neglect; Neglect; Physical abuse; Domestic Violence; Drug/alcohol abuse; Emotional abuse; Abuse of Trust; Sexual abuse; Students who sexually abuse; Student Sexual Exploitation; Student exploitation and E-safety; Female Genital Mutilation; Forced Marriages; Safeguarding Disabled Students; Disability and Vulnerability; Vulnerable Groups; Vulnerable Pupils; Students in Need; Students who run away or go missing and Significant Harm.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a student. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a student.

Emotional abuse: the persistent emotional maltreatment of a student such as to cause severe and adverse effects on the student's emotional development. It may involve conveying to a student that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the student opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on students. These may include interactions that are beyond a student's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the student participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious

bullying (including cyberbullying), causing students frequently to feel frightened or in danger, or the exploitation or corruption of students. Some level of emotional abuse is involved in all types of maltreatment of a student, although it may occur alone.

Sexual abuse and Student Sexual Exploitation (CSE): CSE involves exploitative situations, contexts and relationships where young people receive something (for example food, drugs, alcohol, money or affection) as a result of engaging in sexual activities. CSE can range from 'consensual' to serious organised crime by gangs. What marks out exploitation is an imbalance of power in the relationship. The perpetrator always holds some kind of power over the victim which increases as the exploitative relationship develops. Sexual exploitation involves varying degrees of coercion, intimidation or enticement, including unwanted pressure from peers to have sex, sexual bullying including cyberbullying and grooming. However, it is also important to recognise that some young people who are being sexually exploited do not exhibit any external signs of this abuse. Sexual abuse involves forcing or enticing a student or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the student is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving students in looking at, or in the production of, sexual images, watching sexual activities, encouraging students to behave in sexually inappropriate ways, or grooming a student in preparation for abuse (including via the internet). Some young people do not exhibit any external signs of abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other students.

Neglect: the persistent failure to meet a student's basic physical and/or psychological needs, likely to result in the serious impairment of the student's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a student is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a student from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a student's basic emotional needs.

Specific safeguarding issues: Expert and professional organisations are best placed to provide up-to-date guidance and practical support on specific safeguarding issues. For example NSPCC offers information for schools and colleges on the TES website and also on its own website www.nspcc.org.uk/preventingabuse/. Schools and colleges can also access broad government guidance on the issues listed here via the GOV.UK website: student sexual exploitation (CSE); bullying including cyberbullying; domestic violence; drugs; fabricated or induced illness; faith abuse; female genital mutilation (FGM); forced marriage; gangs and youth violence; gender-based violence against women and girls (VAWG); mental health; private fostering; radicalization; sexting; teenage relationship abuse; trafficking

Female Genital Mutilation (FGM): Here at CIS we are alert to the possibility of a girl being at risk of FGM, or already having suffered FGM and are aware of our mandatory reporting duties in this regard. There are a range of potential indicators that a student or young person may be at risk of

FGM, which individually may not indicate risk but if there are two or more indicators present this could signal a risk to the student or young person. Victims of FGM are likely to come from a community that is known to practise FGM. Professionals should note that girls at risk of FGM may not yet be aware of the practice or that it may be conducted on them, so sensitivity should always be shown when approaching the subject. Warning signs that FGM may be about to take place, or may have already taken place, can be found on pages 11-12 of the Multi-Agency Practice Guidelines referred to previously. Staff should activate local safeguarding procedures, using existing national and local protocols for multi-agency liaison with police and students social care. **Regulated professionals i.e. teachers, social workers and healthcare professionals have a duty under the Serious Crime Act (2015) to report any cases of FGM identified in a female under 18 years of age to the police via the non-emergency number: 101.**

Indicators of Abuse

NEGLECT

The nature of neglect: Neglect is a lack of parental care but poverty and lack of information or adequate services can be contributory factors. Far more students are registered to the category of neglect on student protection plans than to the other categories. As with abuse, the number of students experiencing neglect is likely to be much higher than the numbers on the plans.

Neglect can include parents or carers failing to:

- provide adequate food, clothing and shelter; protect a student from physical and emotional harm or danger;
- ensure adequate supervision or stimulation or ensure access to appropriate medical care or treatment.

NSPCC research has highlighted the following examples of the neglect of students under 12:

- frequently going hungry; frequently having to go to school in dirty clothes;
- regularly having to look after themselves because of parents being away or having problems such as drug or alcohol misuse; being abandoned or deserted; living at home in dangerous physical conditions;
- not being taken to the doctor when ill and not receiving dental care.

Neglect is a difficult form of abuse to recognise and is often seen as less serious than other categories. It is, however, very damaging: students who are neglected often develop more slowly than others and may find it hard to make friends and fit in with their peer group. Neglect is often noticed at a stage when it does not pose a risk to the student. The duty to safeguard and promote the welfare of students (What to do if you are worried a student is being abused 2006) would

suggest that an appropriate intervention or conversation at this early stage can address the issue and prevent a student continuing to suffer until it reaches a point when they are at risk of harm or in significant need. Neglect is often linked to other forms of abuse, so any concerns school staff have should at least be discussed with the designated person/student protection co-ordinator.

Indicators of neglect: The following is a summary of some of the indicators that may suggest a student is being abused or is at risk of harm. It is important to recognise that indicators alone cannot confirm whether a student is being abused. Each student should be seen in the context of their family and wider community and a proper assessment carried out by appropriate persons. What is important to keep in mind is that if you feel unsure or concerned, do something about it. Don't keep it to yourself.

Physical indicators of neglect include:

- constant hunger and stealing food; poor personal hygiene – unkempt, dirty or smelly;
- being underweight; wearing dress unsuitable for weather; poor state of clothing;
- Illness or injury untreated and looking sad, false smiles.

Behavioural indicators of neglect include:

- constant tiredness; frequent absence from school or lateness; missing medical appointments;
- becoming isolated among peers; being frequently unsupervised; stealing or scavenging, especially food and
- having destructive tendencies.

EMOTIONAL ABUSE

The nature of emotional abuse: Most harm is produced in low warmth, high criticism homes, not from single incidents. Emotional abuse is difficult to define, identify/recognise and/or prove. Emotional abuse is chronic and cumulative and has a long-term impact. All kinds of abuse and neglect have emotional effects although emotional abuse can occur by itself. Students can be harmed by witnessing someone harming another person – as in domestic violence. It is sometimes possible to spot emotionally abusive behaviour from parents and carers to their students, by the way that the adults are speaking to, or behaving towards students. An appropriate challenge or

intervention could affect positive change and prevent more intensive work being carried out later on.

Indicators of Emotional Abuse

Developmental issues include:

- delays in physical, mental and emotional development; poor school performance and speech disorders, particularly sudden disorders or changes.

Behaviour:

- acceptance of punishment which appears excessive;
- over-reaction to mistakes; continual self-deprecation (I'm stupid, ugly, worthless etc);
- neurotic behaviour (such as ricking, hair-twisting, thumb sucking); self-mutilation; suicide attempts;
- drug/solvent abuse; running away; compulsive stealing, scavenging;
- acting out; poor trust in significant adults; regressive behaviour – e.g. wetting;
- eating disorders; destructive tendencies; neurotic behaviour; arriving early at school, leaving late.

Social issues:

- withdrawal from physical contact or from social interaction; over-compliant behaviour or insecure, clinging behaviour; poor social relationships.

Emotional responses:

- extreme fear of new situations; inappropriate emotional responses to painful situations (“I deserve this”);
- fear of parents being contacted; self-disgust; low self-esteem; unusually fearful with adults;
- lack of concentration, restlessness, aimlessness; extremes of passivity or aggression.

PHYSICAL ABUSE

The nature of physical abuse:

Most students collect cuts and bruises quite routinely as part of the rough and tumble of daily life. Clearly it is not necessary to be concerned about most of these minor injuries. But accidental injuries normally occur on the bony prominences e.g. shins. Injuries on the soft areas of the body are more likely to be inflicted intentionally and should therefore make us more alert to other concerning factors that may be present. A body map can assist in the clear recording and reporting of physical abuse. The body map should only be used to record observed injuries and no student should be asked to remove clothing by a member of staff of the school.

Indicators of physical Abuse/Factors that should increase concern:

- multiple bruising or bruises and scratches (especially on the head and face); • clusters of bruises – e.g. fingertip bruising (caused by being grasped); • bruises around the neck and behind the ears – the most common abusive injuries are to the head;
- bruises on the back, chest, buttocks, or on the inside of the thighs;
- marks indicating injury by an instrument – e.g. linear bruising (stick), parallel bruising (belt), marks of a buckle; • bite marks;
- deliberate burning may also be indicated by the pattern of an instrument or object - e.g. electric fire, cooker, cigarette; scalds with upward splash marks or tide marks; untreated injuries;
- recurrent injuries, burns or bald patches;
- having broken bones or unexplained bruising, burns or welts in different stages of healing;
- being unable to explain an injury, or providing explanations that are inconsistent, vague or unbelievable.

In the social context of the school or school, it is normal to ask about a noticeable injury. The response to such an enquiry is generally light-hearted and detailed. So, most of all, concern should be increased when:

- the explanation given does not match the injury;
- the explanation uses words or phrases that do not match the vocabulary of the student (adults words);
- no explanation is forthcoming; the student (or the parent/carer) is secretive or evasive or
- the injury is accompanied by allegations of abuse or assault.

You should be concerned if the student or young person:

- is reluctant to have parents/carers contacted; runs away or shows fear of going home;
- is aggressive towards themselves or others; flinches when approached or touched;
- is reluctant to undress to change clothing for sport; wears long sleeves during hot weather; • is unnaturally compliant in the presence of parents/carers; has a fear of medical help or attention or
- admits to a punishment that appears excessive.

SEXUAL ABUSE

The nature of sexual abuse: Sexual abuse is often perpetrated by people who are known and trusted by the student – e.g. relatives, family friends, neighbours, babysitters, people working with the student in school, faith settings, clubs or activities. Students can also be subject to Student Sexual Exploitation. Most people who sexually abuse students are men, but some women sexually abuse too.

Characteristics of student sexual abuse:

- it is often planned and systematic – people do not sexually abuse students by accident, through sexual abuse can be opportunistic;
- grooming the student – people who abuse students take care to choose a vulnerable student and often spend time making them dependent;
- grooming the student's environment – abusers try to ensure that potential adult protectors (parents and other carers especially) are not suspicious of their motives.

Indicators of sexual abuse:

Physical observations:

- damage to genitalia, anus or mouth; sexually transmitted diseases; unexpected pregnancy, especially in very young girls;
- soreness in genital area, anus or mouth and other medical problems such as chronic itching;
- unexplained recurrent urinary tract infections and discharges or abdominal pain.

Behavioural observations

- Sexual knowledge inappropriate for age; Sexualised behaviour or affection inappropriate for age
- Sexually provocative behaviour/promiscuity; Hinting at sexual activity inexplicable decline in school performance
- Depression or other sudden apparent changes in personality as becoming insecure or clinging
- Lack of concentration, restlessness, aimlessness; Socially isolated or withdrawn
- Overly-compliant behaviour; Acting out, aggressive behaviour
- Poor trust or fear concerning significant adults; Regressive behaviour, Onset of wetting, by day or night; nightmares
- Onset of insecure, clinging behaviour; Arriving early at school, leaving late, running away from home
- Suicide attempts, self-mutilation, self-disgust
- Suddenly drawing sexually explicit pictures; Eating disorders or sudden loss of appetite or compulsive eating • Regressing to younger behaviour patterns such as thumb sucking or bringing out discarded cuddly toys
- Become worried about clothing being removed; Trying to be 'ultra-good' or perfect; overreacting to criticism
